## FAQ

### Does each sticker need to be a separate file or can I put them all in a single file?

Each sticker must be imported separately and should be on a 512 by 512 pixel transparent background, preferably with a 16 pixel margin.

### What file type should I export the stickers as?

PNG file

### What happens if my sticker is larger than 512 x 512 px?

Your stickers get resized to fit your entire image.

### What else should I know?

Please ensure that you're following our Terms of Service and rules when creating stickers. Stickers found to be breaching our terms of service or rules may be taken down by our team. If we receive a DMCA Notice about a sticker we will have to take it down.
